

## EGG HUNT GAME INSTRUCTIONS

**How to Play:** On the day of the egg hunt, a designated team member will hide eggs around the office with special prizes inside. Once all of the eggs are hidden and team members can start searching, send an email notifying participants.

**Tips:**

- If there are a lot of participants, it's recommended you put a limit on the number of eggs one individual can find (ex. 1 or 2) so everyone can be sure to find a treat
- Consider hiding some eggs in easy spots and some eggs in harder to find areas so that everyone can participate, regardless of how much time they have
- If you notice that some eggs are still not found towards the end of the hunt, consider sending out helpful tips by email to participants
- Once a team member has found an egg and retrieved what's inside, consider having a designated spot they can return the empty eggs for later use
